# Hi there!

I'm Kyle...

I love to create beautiful wedding paintings that wow, inspire and intimately capture the love, joy, excitement and uniqueness of couples on their big day.

Art is a very personal thing, so connection and collaboration is at the heart of what I do. I don't just paint a scene with two figures at a venue.

My paintings are an intimate celebration of each unique couple, on one of the biggest days of their lives. Capturing their personalities and the spark between them is what makes a truly special wedding painting.

## THE ULTIMATE WEDDING CHECKLIST

Planning your wedding is no simple task. There can be a lot to organise and it can be easy to forget or miss things.

So, to help you keep on top of things, I have compiled the ultimate checklist. It covers all of the general tasks usually associated with planning a wedding and a general timeframe for each task.

All you need to do is refer to the checklist and tick the actions off as required when they are done!
